

KEY FACTS:

£150,000 loan

12-month repayment holiday

Investment to support the new facility

Funding for:

- working capital
- equipment

We've invested into Tumble Gymnastics and Activity Centre, a new organisation which operates a new facility which unifies the community providing physical activity and wellbeing for everyone.

Focused upon gymnastics, the social mission is to encourage and support young people and adults who are currently physically inactive to increase their activity levels to improve their physical and mental health.

Tumble aims to help people of all ages be more physically active, either through gymnastics or use of the community focused gym. The centre is designed to be a place where all the family can get involved in a variety of activities

Early intervention approaches, developing foundation physical literacy skills, are vital in creating an active habit for life and the skills and confidence to take part. Gymnastics is uniquely recognised as providing structured development of physical skills at a very early age.

Tumble offers gymnastics for all, to help develop these physical literacy skills.

Tumble also offers an onsite fitness gym at affordable rates and included as part of the gymnastics class price. This is in particular to encourage parents of children attending gymnastics classes to be active during the class duration.

Each year Tumble will work with over 1000 people to help them develop an active lifestyle. During the first two months of operation, Tumble engaged with 200 families.

Sporting Capital have provided a loan of £150,000 to support the equipment costs for the facility as well as providing working capital to support the business during the initial months of operation. The facility was also supported by a grant from Sport England.

“The investment from Sporting Capital has been invaluable, without the loan we would not have been able to start this project. The loan is flexible and really helped us to have the confidence to move forward with such a big project.

The application process was thorough but beneficial as it tested our assumptions and commitment to the project. It also gave us confidence that our planning and plan was possible and built on solid foundations and assumptions. The Sporting Capital team, especially Jemma, have been helpful and supportive throughout the process.”

Craig Heap, Director
